Evaluation Rubric | Evaluation
---|---
**Outstanding** (above 90 – 100%)
- Student demonstrates excellent understanding of subject matter and relevant literature
- Very organized, well written/presented, concise, critical, and compelling
- Displays originality and significance
- Conclusion is strong and has an impact on the discipline

**Very Good** (above 80 – 90%)
- Student demonstrates significant understanding of subject matter and relevant literature
- Solid work
- Uses appropriate techniques and analyses
- Quality of science is meaningful

**Acceptable** (above 70 – 80%)
- Student demonstrates sufficient understanding of subject matter and relevant literature
- Reasonably well done
- Possesses innovative aspects but lacks originality
- Results are useful but not exciting

**Unacceptable** (70% or below)
- Student demonstrates insufficient understanding of subject matter and relevant literature
- Lack of depth of understanding the project
- Experiments are poorly done and analyzed
- Invalid conclusions
